

Master Wildlifer Wildlife Conservation on Private Lands

A Satellite Course for Private Landowners
and Wildlife Enthusiasts
February 1- March 15, 2005

Master Wildlifer is designed for landowners, land managers and outdoor recreationists who are interested in including wildlife considerations into their current land management activities. Practicing land managers will find the course valuable in highlighting alternative management approaches for wildlife in forest and farm settings. Special emphasis is placed on wildlife species (game species) that currently offer landowners additional sources of income through recreational access fees. Course participants will obtain the knowledge and necessary tools to enhance habitat for a variety of wildlife species that can be enjoyed by themselves, family, friends and anyone interested in wildlife.

Award-Winning Master Wildlifer

- 2004 USDA Secretary's Honor Award, highest award presented by USDA
- 2004 American Distance Education Award
- 2003 Southern Region Extension Award

Content

The Master Wildlifer course will be broadcast live over satellite from Clemson University's studio and delivered to downlink sites across the country in seven 3-hour evening sessions beginning February 1 through March 15, 2005. Video tapes and DVD's of the Master Wildlifer course will also be available after the live broadcast sessions. Course sessions include:

- Session I : Introduction to Wildlife Management**
- Session II : Ecology & Management of Small Game**
- Session III : Ecology & Management of White-tailed Deer**
- Session IV : Ecology & Management of Eastern Wild Turkey**
- Session V : Fish Pond Management**
- Session VI : Managing Wetlands for Waterfowl and Other Wildlife**
- Session VII : Income Opportunities from Wildlife on Private Lands**

The book **Managing Wildlife** (Yarrow and Yarrow 1999, Sweetwater Press) will be the reference manual for the course.
